

X3

3Lit Mini Sterilizer

Compact, Speedy, Big capacity

Why is X3 compact?

The configuration is scientific and rational

- Internal reservoir / draining tank
- Build-in printer / SD memory

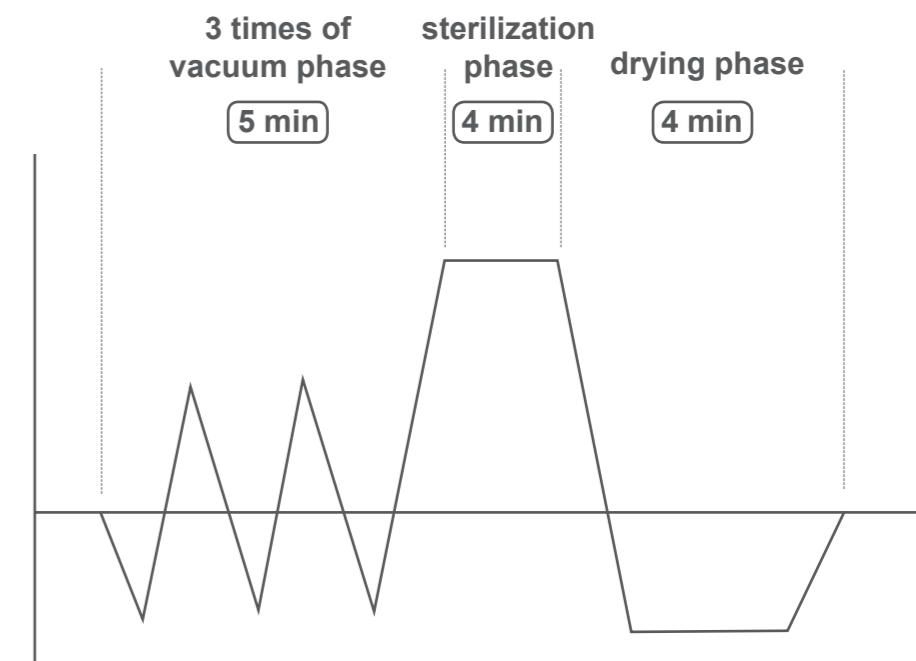

Why is X3 speedy?

Top performance of complete Class B sterilization

Cycle with drying is **13** minutes. (data from our lab)

Why is capacity big?

 The chamber is designed specially of rectangle shape.

1 implant case

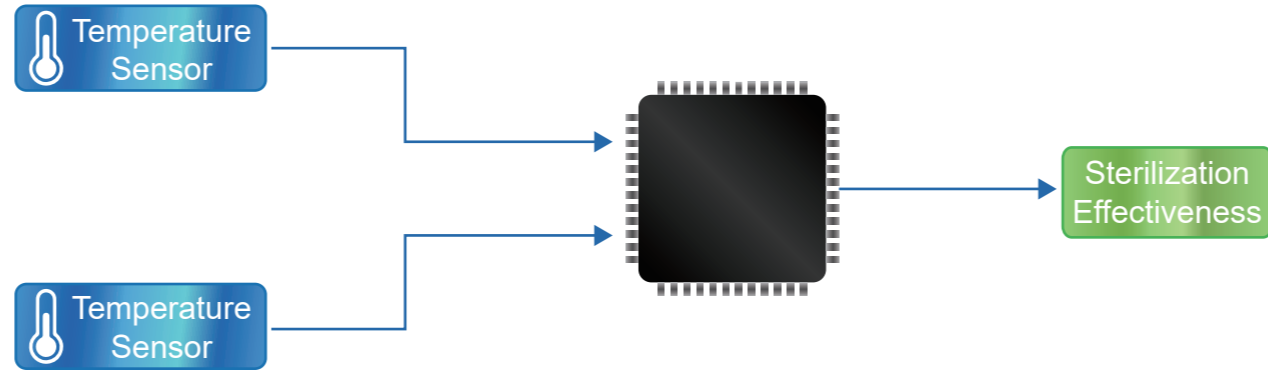

2 trays

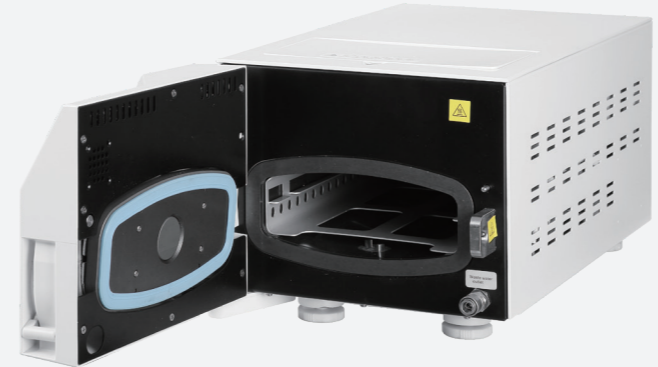

2 trays or 1 implant case can be accomodated

More than those:

 Dual temperature sensors, monitor and control working temperautre more accurate.

 Side-open door, good sealability and high safety

X3 mini Technical Data	
Power supply	230V±23V, 50Hz,2900VA
Rack & trays	Standard 2 trays
External dim.WxHxD	287 x 248 x595 mm
Chamber dim. WxHxD	175 x 55 x 280 mm
N.Weight/G.Weight	24kgs/29kgs
Water tank	1.0 Lit
Waste tank	0.8Lit

Cycles	Sterilization temperature (°C)	Holding time(min)	Pre-vacuum times	Drying Time(min)	Remarks
134°C Universal Quick	134	4	3	4	Preset
134°C Universal	134	4	3	6	Preset
134°C Solid	134	4	1	2	
121°C Universal	121	4	3	8	Preset
