

**multiple protective circuits
are equipped with for high safety**

- Short circuit protection
- Over-heat protection
- Heater overtime work protection

Used widely in:

**Biochemistry
laboratory**

**Medical
disinfection room**

Dental clinic

TECHNICAL DATA

Model	2.5L
Tank dimensions	245*150*75mm
Tank capacity	2.5L
Power supply	AC220-240V 50/60Hz, 250W
Ultrasonic power	100W
Heating power	100W
Ultrasonic Frequency	40K Hz
Time	1-30min
Temperature	60°C
Product size	320*235*205mm
N,W/G.W	2.9/3.5KG
Packing dimensions	1PCS/350*300*240mm 2PCS/370*310*520mm 4PCS/600*370*520mm

Ultrasonic Cleaner/2.5L

Deep & Thorough Cleaning

The housing is made from engineering plastics

- Weight is light
- Corrosion resistant
- Excellent electrical insulation performance
- Excellent heat insulation performance

Cooling fan is equipped with, which extend the lifespan greatly

Cleaning efficiency is higher

- Adopt industrial-grade ultrasonic transducer which is more powerful
- With degassing function
